Number Theory Days in Lille

mardi 9 juillet 2019

Galois representations and modular forms - Salle de réunion (09:00 - 16:30)

time	[id] title	presenter
09:00	Coffee and pastries	
09:45	[45] Applications of the orbit method to the analysis of automorphic forms	NELSON, Paul
10:45	Break	
11:00	[55] Birch and Swinnerton-Dyer Formula for modular forms of arbitrary weight in the cases of analytic ranks 0 and 1	JETCHEV, Dimitar
12:00	Lunch break	
14:00	[56] On a conjecture of Gross and explicit formula for Gross-Stark units	KAKDE, Mahesh
15:00	Coffee break	
15:30	[52] Overconvergent cohomology and automorphic p-adic L-functions	BARRERA, Daniel

jeudi 11 juillet 2019

Galois representations and modular forms - Salle de réunion (09:45 - 10:45)

time	[id] title	presenter
09:45	[46] Image of two-dimensional pseudorepresentations	LANG, Jaclyn
