Bifurcations and Stability

mardi 10 juin 2025 11:00 (1 heure)

Open discussion on the questions below.

- What are the major questions on bifurcations and stability in active matter ?
- What kind of mathematical techniques for bifurcation and stability need to be develop and in what kind of problems.

Anyone else who wants to talk on this session is also welcome to participate in discussion.

Orateurs: MOROZOV, Alexander (University of Edinburgh); Prof. MARCINIAK-CZOCHRA, Anna (Heidelberg University); CLEMENT, Eric (PMMH-ESPCI); PAGONABARRAGA, Ignasi (Dept. Condensed Matter Physics, University of Barcelona); CARRILLO, Jose Antonio (University of Oxford)
