

Mixture models : Theory and applications

vendredi 22 juin 2018

Biological and medical applications - Amphi Risler (jeudi), Amphi Tisserand (vendredi) (09:30 - 12:30)

time	[id] title	presenter
09:30	[11] The Latent Block Model: a useful model for high dimensional data	Dr KERIBIN, Christine
10:00	[12] C-mix: a high dimensional mixture model for censored durations, with applications to genetic data	Prof. GUILLOUX, Agathe
10:30	Coffee break	
11:00	[13] Model-based clustering for cytometry	Dr BAUDRY, Jean-Patrick
11:30	[15] Clustering of co-expressed genes	Dr MAUGIS-RABUSSEAU, Cathy
