

# Systems out of equilibrium, Paris

**lundi 28 septembre 2020**

**Seminar: Alvisе BASTIANELLO: "Adiabatic bound-state formation in the 1d Bose gas" - Amphitheater Darboux (10:00 - 11:00)**

# **vendredi 2 octobre 2020**

**Seminar: Etienne GRANET: "A systematic  $1/c$  expansion of form factor sums for dynamical correlations in the Lieb-Liniger model" - Amphitheater Darboux (10:00 - 11:00)**

# **vendredi 9 octobre 2020**

**Seminar: Andrea DE LUCA: "Heating and thermalization in generalized hydrodynamics". CANCELED. - Amphitheater Darboux (10:00 - 11:00)**

# lundi 12 octobre 2020

**Seminar: Tomaz PROSEN: "Exactly solved models of many-body quantum chaos" - Amphitheater Darboux (10:00 - 11:00)**

# **vendredi 16 octobre 2020**

**Seminar: Jacopo DE NARDIS: "KPZ dynamics in 1-dimensional chains: superuniversality and quantum-classical correspondence" - Amphitheater Darboux (10:00 - 11:00)**

# **lundi 19 octobre 2020**

**Seminar: Tomaz PROSEN: "Integrable Matrix Models in Discrete Space-Time: Super-universality of Anomalous Transport" - Amphitheater Darboux (10:00 - 11:00)**

# mercredi 21 octobre 2020

**Seminar: Denis Bernard: Informal Discussion "Q-SSEP & its cousins" - Amphitheater Darboux (15:00 - 16:30)**

# **vendredi 23 octobre 2020**

**Seminar: Andrea TROMBETTONI: "Floquet Hamiltonian for a Periodically Tilted 1D Gas" - Amphitheater Darboux**  
**(10:00 - 11:00)**

# **lundi 26 octobre 2020**

**Seminar: Tomaz PROSEN: "Route 54" - Amphitheater Darboux (10:00 - 11:00)**

# **vendredi 30 octobre 2020**

**Seminar: Andrea DE LUCA: "Heating and thermalization in generalized hydrodynamics". - Amphitheater Darboux (10:00 - 11:00)**

**Seminar: Giuseppe MUSSARDO: Informal seminar: "Mertens functions and The Riemann Hypothesis" - Amphitheater Darboux (14:30 - 16:00)**

# jeudi 5 novembre 2020

**Seminar: Herbert Spohn: "Hydrodynamics of the Toda lattice, classical and quantum" - Amphitheater Darboux (15:30 - 16:30)**
