

Systems out of equilibrium, Paris

Monday 28 September 2020

Seminar: Alvis BASTIANELLO: "Adiabatic bound-state formation in the 1d Bose gas" - Amphitheater Darboux
(10:00-11:00)

Friday 02 October 2020

Seminar: Etienne GRANET: "A systematic $1/c$ expansion of form factor sums for dynamical correlations in the Lieb-Liniger model" - Amphitheater Darboux (10:00-11:00)

Friday 09 October 2020

Seminar: Andrea DE LUCA: "Heating and thermalization in generalized hydrodynamics". CANCELED. - Amphitheater Darboux (10:00-11:00)

Monday 12 October 2020

Seminar: Tomaz PROSEN: "Exactly solved models of many-body quantum chaos" - Amphitheater Darboux
(10:00-11:00)

Friday 16 October 2020

Seminar: Jacopo DE NARDIS: "KPZ dynamics in 1-dimensional chains: superuniversality and quantum-classical correspondence" - Amphitheater Darboux (10:00-11:00)

Monday 19 October 2020

Seminar: Tomaz PROSEN: "Integrable Matrix Models in Discrete Space-Time: Super-universality of Anomalous Transport" - Amphitheater Darboux (10:00-11:00)

Wednesday 21 October 2020

Seminar: Denis Bernard: Informal Discussion "Q-SSEP & its cousins" - Amphitheater Darboux (15:00-16:30)

Friday 23 October 2020

Seminar: Andrea TROMBETTONI: "Floquet Hamiltonian for a Periodically Tilted 1D Gas" - Amphitheater Darboux
(10:00-11:00)

Monday 26 October 2020

Seminar: Tomaz PROSEN: "Route 54" - Amphitheater Darboux (10:00-11:00)

Friday 30 October 2020

Seminar: Andrea DE LUCA: "Heating and thermalization in generalized hydrodynamics". - Amphitheater Darboux (10:00-11:00)

Seminar: Giuseppe MUSSARDO: Informal seminar: "Mertens functions and The Riemann Hypothesis" - Amphitheater Darboux (14:30-16:00)

Thursday 05 November 2020

Seminar: Herbert Spohn: "Hydrodynamics of the Toda lattice, classical and quantum" - Amphitheater Darboux
(15:30-16:30)
