## On the notion of quasi local mass in General Relativity (lecture 2)

*mardi 29 septembre 2015 12:00 (1 heure)*

Contents:

- (1) New definition of quasi-local energy.
- (2) Isometric embedding into the Minkowski space.
- (3) The proof of positivity.

A set of notes is provided for the 4 lectures in the Abstracts section

**Orateur:** WANG, Mu-Tao (Columbia University, NY)
