On the notion of quasi local mass in General Relativity (lecture 1)

lundi 28 septembre 2015 14:20 (1 heure)

Contents:

- (1) Review of mass and energy in relativity.
- (2) ADM mass and energy-momentum.
- (3) Various definitions of quasi-local mass.

A set of notes is provided for the 4 lectures in the Abstracts section

Orateur: WANG, Mu-Tao (Columbia University, NY)
