Prolate Wave Operator and Zeta (T: 50mn + Q: 10mn)

lundi 9 mai 2022 15:00 (1 heure)

This is joint work with Henri Moscovici in which we show that the ultraviolet spectrum of the selfadjoint extension of the prolate wave operator matches the squares of the zeros of the Riemann zeta function.

Orateur: Prof. CONNES, Alain (IHES & Collège de France)

Classification de Session: Afternoon chair: Laurent Baulieu
