Non-negativity and rational sums of squares over zero-dimensional varieties by Teresa Krick

jeudi 19 octobre 2023 14:30 (1 heure)

Abstract. In this work in progress with Lorenzo Baldi and Bernard Mourrain, we extend previous results on univariate rational sums of squares, obtained with Bernard and Agnes Szanto, to the case of a non-negative rational polynomial on a basic zero-dimensional semi-algebraic set defined by rational polynomials.
