

An Introduction to Geometry and Dynamics on Semisimple Lie Groups and Their Quotients by Discrete Subgroups (1/3)

lundi 19 juin 2023 09:30 (1 heure)

The purpose of these lectures is to introduce certain objects and structure results on semisimple Lie groups, their structure theory, their discrete subgroups and the asymptotic behaviour of the latter.

Orateur: Prof. QUINT, Jean-François (CNRS & Université de Bordeaux)
