Krzysztof Oleszkiewicz: On the asymptotic behavior of the best constants in the Khinchine and Khinchine-Kahane inequalities

mercredi 31 mai 2023 11:55 (45 minutes)

A century after the Khinchine inequalities were proven, most of the optimal constants in them are still unknown, but there is a slow, gradual progress in understanding their asymptotic behaviour. I will report on some recent result in this direction.

Orateur: OLESZKIEWICZ, Krzysztof
