Joseph Lehec: The Kannan-Lovasz-Simonovits conjecture up to polylog.

jeudi 1 juin 2023 16:55 (45 minutes)

The talk will be mostly based on a joint work with Bo'az Klartag from last year in which we prove a polylog estimate for the Kannan, Lovasz, Simonovits (KLS) conjecture. If time permits I will also discuss more recent improvements of the bound.

Orateur: LEHEC, Joseph
