Introduction to Prismatic Cohomology (2/4)

mardi 11 juillet 2023 09:15 (1h 30m)

This series of four lectures will offer an introduction to prismatic cohomology as developed by Bhatt and Scholze. More concretely, we plan to cover:

1) Prismatic cohomology in char 0 and characteristic p
2) General results on (derived) prismatic cohomology
3) Prismatization as a tool for understanding prismatic cohomology
4) The prismatic logarithm

Orateur: Prof. ANSCHÜTZ, Johannes (University of Bonn)
