</table>
Joséphine Evans  
*Convergence to equilibrium for linear run and tumble chemotaxis models*

Pierre Gervais  
*Hydrodynamic limits for kinetic equations: a spectral and unified approach*

Coffee break (Salle Pasteur)

Sébastien Tran Tien  
*Vanishing diffusion limit for aggregation equations*

Carmela Moschella  
*Vicsek-Kuramoto third order system in collective dynamics and their macroscopic equations*

Bérénice Grec  
*Rigorous derivation of the Fick cross-diffusion system from the multi-species Boltzmann equation in the diffusive scaling*

Lunch (Restaurant universitaire Sully)

Jian-Guo Liu  
*Asymptotic Analysis of Non-Equilibrium Chemical Reactions in the Thermodynamic Regime using WKB Method*

Matthieu Brachet  
*Time discretization on Cahn-Hilliard equations*

Coffee break (Salle Pasteur)

Tim Laux  
*Sharp-interface limits in the dynamics of phase transitions: from the Allen-Cahn equation to liquid crystals*

Aissa Guesmia  
*Cauchy systems of type Rao-Nakra sandwich beam with frictional dampings or infinite memories: some $L^q(\mathbb{R})$-norm polynomial stability estimates ($q \in [1, +\infty]$)*
Wednesday

09:30  Daniel Matthes  
*Covariance modulated optimal transport: geometry and gradient flows*

10:30  Laura Kanzler  
*Boltzmann mean-field game model for knowledge growth*

11:00 Coffee break (Salle Pasteur)

11:30  Hélène Hivert  
*Concentration in a population model structured in age and phenotypical trait: an asymptotic-preserving scheme*

12:00 Rim Mheich  
*Cahn-Hilliard Equation with Regularization Term*

12:30 Senoussi Guesmia  
*Asymptotic behavior of Lamé’s system in large size noncylindrical domains*

13:00 Lunch (Restaurant universitaire Sully)

14:30 Virginie Ehrlacher  
*Cross-diffusion systems in moving boundary domains: discretization and optimal control*

15:30 Free afternoon / Visit in Lille

19:00 Conference dinner (Restaurant ”L’Assiette du Marché”)

Thursday

09:30  Lorenzo Pareschi
Asymptotic-preserving IMEX methods: bridging scales in hyperbolic and kinetic equations

10:30  Kévin Guillon
Modelization and AP kinetic scheme for the 2D bi-temperature dimensionless Euler system in a plasma

11:00  Coffee break (Salle Pasteur)

11:30  Damien Prel
Multiscale numerical schemes for the collisional Vlasov equation in the finite Larmor radius approximation regime

12:00  Federica Ferrarese
Collective motion of birds: swarming dynamics with transient leadership

12:30  Tino Laidin
Hybrid Kinetic/Fluid numerical method for the Vlasov-BGK equation in the diffusive scaling

13:00  Lunch (Restaurant universitaire Sully)

14:30  Steven Wise
Doubly Degenerate Cahn-Hilliard Models of Surface Diffusion

15:30  Julien Moatti
A high-order scheme for advection-diffusion preserving positivity and long-time behaviour

16:00  Coffee break (Salle Pasteur)

16:30  Matthieu Alfaro
Long time behavior of the field-road diffusion model

17:00  Annamaria Massimini
Finite volumes for a generalized Poisson-Nernst-Planck system with cross-diffusion and size exclusion
Friday

09:30  Amic Frouvelle
       Jumping in the middle, from alignment models to sexual population dynamics

10:30  Bao Ngoc Tran
       Rigorous derivation of Michaelis-Menten kinetics in the presence of diffusion

11:00  Coffee break (Salle Pasteur)

11:30  Quentin Chauleur
       Dynamics of the isothermal compressible Euler system with damping

12:00  Hélène Mathis
       Modelling compressible two-phase flows with surface tension
Poster session

Salle Pasteur, Polytech Lille
Monday 5th, 17:00-19:00

Fakhrieddine Bader
Multi-scale unfolding homogenization method applied to bidomain and tridomain electrophysiology models

Aymen Balti
Combining and Optimising the Innovative Cancer Therapies Based to the Mechanistic Modeling

Maxime Jonval
Robust resolution of chemical equilibrium by the methods of parametrization and cartesian representations

Zeinab Mohamad Ali
Polynomial stability of a transmission problem involving Timoshenko systems with fractional Kelvin-Voigt damping

Maxime Payan
Numerical and Theoretical Study of Patterns in a Chemotaxis Model

Alex Rossi
Instability of stationary solutions to Allen-Cahn type opinion formation models

Florian Salin
Numerical Analysis of Fractional Nonlinear Diffusion Equation on Bounded Domain

Niccolò Tassi
Asymptotic behaviour of a nonlocal Fokker-Planck equation

Luca Ziviani
$L^2$ Hypocoercivity methods for kinetic Fokker-Planck equations with factorised Gibbs states

Antoine Zurek
Explicit rates of convergence for the localization limit of some cross-diffusion systems
How to come to Polytech Lille

From Lille railway stations: take Line 1 subway and stop at station 4 Cantons - Pierre Mauroy.
How to come to the restaurant ”L’assiette du Marché”

From Lille railway stations: take Line 1 subway and stop at station Gare Lille Flandres or Rihour. If you come from Rihour, walk towards Grand Place and Vieille Bourse to find Place du Théâtre. From there, walk through Rue de la Grande Chaussée, then turn on the right through Rue Basse and you will find Rue de la Monnaie by continuing on the left. The restaurant is located at 61, Rue de la Monnaie.
How to access to Polytech work rooms

Two work rooms have been booked in Polytech Lille for the ABPDE participants who need some time and place for working. These rooms (A204 and A205) are located on 2nd floor of section Aile A - Ader of Polytech building.

- Salle Pasteur (coffee breaks, poster session)
- Amphithéâtre Migeon (talks)
- Rooms A204 and A205
