

Mini-course: Geometry of Killing horizons and applications to black hole physics

mardi 19 mars 2024 15:00 (1 heure)

IV. Degenerate Killing horizons and their near-horizon geometry

1. The extremal Reissner-Nordström example
2. The scri+ example
3. Near-horizon geometry of generic extremal black holes

Orateur: GOURGOULHON, Eric (LUTH, Observatoire de Paris)
